

Join us November 12th for a Recycling, Waste Reduction, and Inert Waste Landfill Workshop.

This **free two-part** workshop will take place on Thursday, November 12th during the afternoon and evening in the lower level of Jamestown City Hall (102 3 Ave. SE); see the schedule at right for details.

If you are interested in opening or currently operate an inert waste landfill, want to review inert landfill rules, or to learn more about compost or wood waste uses, join us during the afternoon workshop from 1 – 4 p.m.

What can you recycle or where can you bring it to? What about that old computer taking up space in your basement? Learn about these tips and more ways to reduce your waste and help the environment during the evening portion of the workshop from 6 – 8:30 p.m.

Example of a Fargo, ND Recycling Site
